Proposal of the Board of Directors on authorizing the Board of Directors to decide on share issue as well as option rights and other special rights entitling to shares

The Board of Directors proposes that the Annual General Meeting authorizes the Board of Directors to decide on share issue as well as issue of option rights and other special rights entitling to shares, pursuant to Chapter 10 of the Companies Act as follows:

The shares issued under the authorization are new or those in the company's possession Series A shares of the Company. Under the authorization, a maximum of 2,500,000 Series A shares, which corresponds to approximately 4.50 percent of all of the shares in the Company and approximately 5.00 percent of all the Series A shares in the Company, can be issued. The shares, option rights or other special rights entitling to shares can be issued in one or more tranches.

Under the authorization, the Board of Directors may resolve upon issuing new Series A shares to the Company itself without consideration. However, the Company, together with its subsidiaries, cannot at any time own more than 10 percent of all its registered shares.

The Board of Directors is authorized to resolve on all terms for the share issue and granting of the special rights entitling to shares. The Board of Directors is authorized to resolve on a directed share issue and issue of the special rights entitling to shares in deviation from the shareholders' pre-emptive right. A directed share issue always requires a weighty economic reason for the Company and the authorization may not be utilized inconsistently with the principle of equal treatment of shareholders.

The authorization to issue new shares, option rights as well as other special rights entitling to shares is proposed in order to enable the Board of Directors to decide flexibly on capital markets transactions that are beneficial for the Company, such as securing the financing needs of the Company or implementing acquisitions. In addition, the authorization may be used in order to implement share based incentive arrangements and payment of the share based remuneration directed to the management of the company and the group companies.

The authorization shall be effective until 30 June 2019.

The authorization revokes authorization granted on 6 April 2017 by the Annual General Meeting to the Board of Directors to resolve on an issue of shares, option rights as well as other special rights entitling to shares.

Proposal of the Board of Directors on authorising the Board of Directors to decide on the acquisition of the Company's own Series A shares and/or on the acceptance as pledge of the Company's own Series A shares

The Board of Directors proposes to the Annual General Meeting that the Board of Directors be authorized to decide on the purchase of the Company's own Series A shares and/or on the acceptance the Company's own Series A shares as pledge as follows:

The aggregate number of own Series A shares to be acquired and/or accepted as pledge shall not exceed 2,500,000 Series A shares in total, which corresponds to approximately 4.50 percent of all of the shares in the Company and approximately 5.00 percent of all the Series A shares in the Company. However, the Company together with its subsidiaries cannot at any moment own and/or hold as pledge more than 10 percent of all the shares in the Company.

The Company's own Series A shares may be purchased on the basis of the authorization only by using non-restricted equity which consequently reduces the amount of the funds available for distribution of profits. The Company's own Series A shares may be purchased for a price quoted in public trading on the purchase day or for a price otherwise determined by the market.

The shares may be purchased under the proposed authorization in order to develop the capital structure of the Company. In addition, the shares may be repurchased under the proposed authorization in order to finance or carry out acquisitions or other arrangements, as a part of incentive schemes and payment of share based remuneration or to be transferred for other purposes, or to be cancelled.

The Board of Directors shall resolve upon the method of purchase. Among other means, derivatives may be utilized in purchasing the shares. The shares may be purchased in a proportion other than that of the shares held by the shareholders (directed purchase). A directed purchase of the Company's own shares always requires a weighty economic reason for the Company and the authorization may not be utilized inconsistently with the principle of equal treatment of shareholders.

The authorization is effective until 30 June 2019.

The authorization revokes that granted on 6 April 2017 by the Annual General Meeting to the Board of Directors to acquire and/or to accept as pledge the company's own Series A shares.
